GENERAL ASSEMBLY

KRAKOV

27 - 30th NOVEMBER 2014

Revitalized Krakow, ancient residence of the Polish kings, with its own historic center being a UNESCO world heritage site, is Poland's most well-known city and most important tourist destination. The heart of the city, the Rynek Główny, built during the medieval period, is one of Europe's largest and most beautiful squares. It spreads across 8 hectares and hosts the Fabric Warehouse (Sukiennice) renaissance palace, which was once an open fabric market, as well as the Municipal Tower and the Church of S. Adalberto. Krakow's primary monuments include the lovely Church of S. Maria, an imposing gothic structure with two completely disharmonious towers and a spectacular interior. There's also Wawel Royal Castle, political and cultural center until the 1600's. Finally, not to be missed is the old Jewish quarter of Kazimierz. Thanks to the real-life happenings during World War II brought to life by the famous film Schindler's List, today this quarter has rediscovered its luster and notoriety.

Wieliczka Salt Mines (excursion included in Packages B & C)

The mines can be found about 10 kilometers from Krakow. They are included in UNESCO's list of World Heritage sites and are considered one of the most interesting and fascinating excursions in the world. Transportation by private bus to and from the hotel to Wieliczka and a guided tour (in English and in Italian) lasting 3 hours have been organized. Temperatures within the mine remain at a constant 14/15 degrees and it is therefore advised to be dressed accordingly. The tour begins with a stair descent for 80 meters, then walking along passages by numerous caverns to admire the statues of salt of which some audio light effects. Many underground churches can be seen, including the largest and most spectacular- Santa Kringa. It features a grand altar, which can be found at 101 meters under-sea-level. In the mines are many reproductions, including Leonardo da Vinci's "The Last Supper" and a statue by Giovanni Paolo II sculpted in 1999. Beyond 120 meters below-sea-level many lakes can be found. Dinner will be held at 135 meters below-sea-level in the magnificent "Haluszká" cave. After the concert by the Miner's Band, a metal elevator will bring all participants back to the surface in just 40 seconds.

(For those who might suffer from claustrophobia or those who do not intend to participate in the Mine excursion, as an alternative dinner at the "Trzy Rybki" restaurant within Hotel Sary may be arranged, depending on prior notification to the Organizational Secretary (eventisagency@gmail.com))
